Prices\* for Research MASTER Systems: January 1, 2013 – December 31, 2013

	US\$
<p><b>MULTI-MASTER Acquisition and Review Software</b>            Allows for a MASTER test using, amplitude modulation, frequency modulation, or mixed modulation, and Exponential envelope stimuli. Up to 8 stimuli in a single ear. New types of bone-conduction MASTER stimuli with independently controlled phases for AM envelopes and carriers. Screening stimuli such as noise, band pass noise, clicks, and tone bursts. Allows for derived band steady-state responses. <u>Includes software license for use on one machine only.</u></p>	\$ 7,500
<p><b>MULTI-MASTER Acquisition and Review software (Upgrade)</b>            Previous Master users may upgrade to USB or PCMCIA Multi-MASTER Research System (license for 1 machine).</p>	\$ 5,500
<p>Users must independently supply the following system components or suitable substitutes.</p>	
<p><b>2 channel portable EEG:</b>  <a href="http://www.grasstechnologies.com/products/amplifiers/lp511.html">http://www.grasstechnologies.com/products/amplifiers/lp511.html</a></p>	\$ 1,565
<p><b>National Instruments data I/O</b> (suggest NI USB-6212 BNC)  <a href="http://sine.ni.com/nips/cds/view/p/lang/en/nid/207097">http://sine.ni.com/nips/cds/view/p/lang/en/nid/207097</a></p>	\$ 1,535
<p><b>Sound Amplifier**</b> (2 audio channels, Fireface 4000)  <a href="http://www.zzounds.com/item--RMEFIREFACE400">http://www.zzounds.com/item--RMEFIREFACE400</a>            **A portable sound amplifier allows portable data collection. Many users will route the signals through the Tape Input of an audiometer in a hearing clinic in order to control the intensity of the steady state stimuli.</p>	\$1,799

\*Prices do not include international shipping or any applicable taxes. All sales are final. MASTER Systems are for Research Purposes Only. Only the Bio-Logic/NATUS MASTER system is FDA approved and clinically oriented. Computer not included.
